## PAINTINGS FROM THE INFORMAL PLEIN AIR PAINT OUT at: EVERGREEN BRICK WORKS Sunday April 24th 10:00 am

The weather was excellent, the place was abuzz with people of all ages exploring the premises and ponds and 8 members participated in the paint out.

Amongst the wildlife, someone spotted some rare brush-in-bush white-capped artisanal anthropoids, as well as the early spring arrival of the purple crested monitor that always stays close to open water.

Here are some work-in-progress watercolours by our members.
